IMMUNIZATION (VACCINATION) INFORMATION FOR CHILDCARE

All childcare facilities in BC are required by law under the *Community Care and Assisted Living Act* to keep a record of each child's immunization history. These records are required to be made available to Vancouver Coastal Health Authority (VCH) medical health officers for public health programs. The information you provide on this form will be used to update your child's health record at VCH in order that: medical health officers may respond if a disease outbreak occurs in your childcare facility; public health staff can recommend immunizations which your child may be missing; and VCH is able to provide better care to your child as part of its public health programs.
